

Manufacturer of fine brushes since 1935

BÜRSTENHAUS REDECKER

IN OUR GARDEN

Essentials and delightful things
around the house, yard and garden

THE GARDEN - OUR FAVOURITE WORKPLACE

Working in the garden is a joy! But of course, as with any kind of work, it can even be enhanced if the proper tools are involved. In this leaflet, we have compiled our favourite products for yard and garden - robust and beautiful helpers which take the sting out of "garden work".

Our robust and high-quality **garden set** makes it particularly easy to work between plantings.

In the garden, some things need a more energetic treatment than around the house. For this, the **scrub brush with bow-shaped handle** is the ideal helper. The sturdy handle allows for powerful passes.

PRACTICAL CLEANING AIDS

With the conically shaped **flower pot brush**, you can effortlessly remove old soil remnants from flower pots.

Thanks to the hard bristles, the dirt on your garden tools can be brushed off particularly well with the **garden tool brush**; additionally, the front edge serves as a scraper. The long handle protects against injuries caused by sharp edges, for instance, lawnmower blades.

With the gardener's nail brush you can quickly remove stubborn dirt from hands and nails after gardening.

BACK THEN AS TODAY

Cobweb brooms are particularly suitable for removing spiderwebs, dirt and dust from house facades, window reveals and roof overhangs. For an extended range, we recommend combining them with our telescopic handles.

Friedel Redecker, the company's founder, sold the first Redecker spider sweepers to the Westphalian farmers in 1935 for their pigsties. To this day the basic design remains unchanged.

Gutter cleaner

Gutter shovel

JUST LIKE IT USED TO BE AT GRANDMA'S...

Who doesn't remember those **old fashion clothes pegs**?! These clamps can withstand any storm. And the great thing about them is that they do not rust and therefore leave no stains on freshly washed laundry.

CAN THERE BE ANYTHING WORSE THAN HAVING TO CLEAN THE GUTTER ON A COLD, RAINY SATURDAY AFTERNOON IN AUTUMN?

With our **gutter cleaning articles**, it is at least a much easier task. With the gutter cleaner, you can pull the foliage from both sides in a range of 4 meters total - and then easily lift it out with the gutter shovel. That way the ladder only has to be repositioned a few times - and you're finished ... and can get back inside quickly!

HOW TO SWEEP PROPERLY:

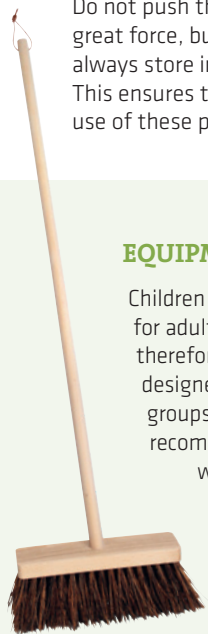

Rice straw and Arenga palm do not absorb moisture, which makes these brooms perfect for sweeping leaves and straw.

Do not push the broom with great force, but pull carefully and always store in a hanging position! This ensures that you will enjoy the use of these products for a long time.

EQUIPMENT SUITABLE FOR CHILDREN

Children like to help in the garden, but the working tools for adults do not have suitable proportions and are therefore inadequate. Our child-friendly utensils are designed to meet the requirements of different age groups. For children up to about three years old, we recommend a handle length of 70 cm for brooms, while older children may need a length of about 90 cm. Using the proper tool will let children enjoy helping out.

A PRACTICAL DUO FOR YARD AND GARDEN

A real classic: **Hand brushes** and **dustpans** must not be absent in any household. This set of stained beechwood, arenga and moss-green coated metal not only looks pretty, but is also impervious to moisture and ideal for outdoor use.

Arenga is extracted from the leaf fibres of the Asian sugar palm. It is finer and softer than other palm fibres, yet it is tough and elastic.

STAMP OFF FEET, PLEASE!

Our **boot scrapers** made of oiled oak are a very special eye-catcher in front of any door. In our own factory workshop, each of these items is crafted by hand. The various models should satisfy any possible wish and, given the proper treatment, will accompany you for the better part of a lifetime.

FOOTWEAR CARE

If wiping on the doormat is not enough, you can brush off stuck dirt best with our **boot brush**. Thanks to the extra long handle, this is done effortlessly.

The boot scraper with boot jack cleans shoes without having to bend over. Firmly fitting boots can be pulled off easily with the side-mounted boot jack.

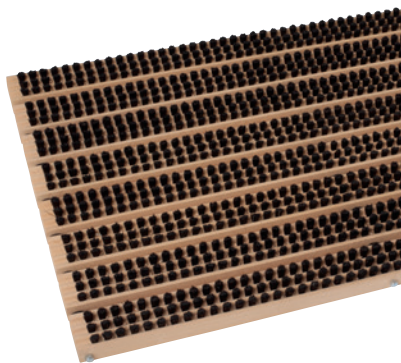

TOUGH STUFF: THE COCONUT FIBRE

Coconut doormats are absolutely water and frost resistant. These all-weather floor mats are characterised by their durability and longevity and have the typical warm natural tone of coconut fibre.

PROTECT DOORMATS WITH WOODEN BODY FROM MOISTURE!

Our **doormats** with wooden bodies rest on rubber studs: Even if the floor is moist, the doormat remains dry. Nevertheless, you should never permanently expose the wooden doormats to direct moisture.

AND WHO HOLDS THE SHED DOOR OPEN?

Our prickly **hedgehog door stop** is not only a practical and cute holder for open doors, its bassine trim is also suitable for shoe cleaning.

Manufacturer of fine brushes since 1935

BÜRSTENHAUS REDECKER

TRADITION AND MODERNITY IN HARMONY

The first handcrafted Redecker brushes were produced in 1935. A lot has changed since then. Today, the name Redecker stands, as it has for many years, for an ideal combination of natural quality, function, and design. It lives from our very own blend of inventiveness, sound craftsmanship, and creativity.

For further information, you may contact us by phone **+ 49 (0) 5423-9464-0** or email at **info@redecker.de**! Also visit us on the internet at **www.redecker.de**! In addition to tips and ideas, you will also find a catalogue that allows you to browse through all available Redecker products.
